Art Unit: 3632

This is the first office action for serial number 10/058,769 entitled Moving Yoke, filed on January 30, 2002.

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claim 6 and 8 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claim 6 recites the limitation "swivelling means" in line 1. There is insufficient antecedent basis for this limitation in the claim.

Claim 9 recites the limitation "the support means" in line 2. There is improper antecedent basis for this limitation in the claim.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless -

(d) the invention was first patented or caused to be patented, or was the subject of an inventor's certificate, by the applicant or his legal representatives or assigns in a foreign country prior to the date of the application for patent in this country on an application for patent or inventor's certificate filed more than twelve months before the filing of the application in the United States.

Art Unit: 3632

Claims 1-9 are rejected under 35 U.S.C. 102(d) as being barred by applicant's GB 2,353,206 patent. GB patent discloses a moving yoke comprising a first, second, and third yoke member.
